

## LANDMARK STAFFING

**Position: Machine Repair Technician with Electrical Experience**

**Location: Grand Junction, CO**

**Type: Full Time**

**Wage: \$15.00 - \$21.00 / hour**

### **Job Overview:**

We are seeking a skilled and experienced Machine Repair Technician with a strong background in electrical repair and maintenance. The ideal candidate will be responsible for diagnosing, troubleshooting, and repairing industrial machinery and equipment, including motors, conveyors, and control systems. The successful candidate will also be required to perform preventive maintenance tasks, install new machinery, and ensure that all equipment is running safely and efficiently.

### **Key Responsibilities:**

- Perform diagnostic tests and troubleshooting procedures to identify and repair mechanical, electrical, and control system issues in industrial machinery and equipment.
- Repair or replace faulty components, including motors, pumps, bearings, and other mechanical parts.
- Troubleshoot and repair control systems, including programmable logic controllers (PLCs), human-machine interfaces (HMIs), and other automation systems.
- Conduct preventive maintenance tasks, including lubrication, inspections, and adjustments to ensure optimal performance and prevent downtime.
- Install new machinery, including electrical and mechanical components, and ensure that all systems are properly calibrated and functioning.
- Document maintenance and repair activities using computerized maintenance management systems (CMMS).
- Comply with all safety regulations and procedures, and ensure that all work is performed in a safe and efficient manner.

### **Requirements:**

- High school diploma or equivalent.

## LANDMARK STAFFING

- Minimum of 2 years of experience in industrial machine repair and maintenance.
- Strong electrical and mechanical aptitude, with experience in troubleshooting and repairing industrial machinery.
- Familiarity with PLCs, HMIs, and other control systems.
- Ability to read and interpret electrical and mechanical schematics.
- Knowledge of industrial safety practices and procedures.
- Excellent problem-solving and communication skills.
- Ability to work independently and as part of a team.
  - Background Check and Drug Testing is required for this position.

**If you meet the above requirements and are passionate about maintaining and repairing industrial machinery, we encourage you to apply for this exciting opportunity.**
