

## LANDMARK STAFFING

**Position: AV Technician/ Integrator**

**Location: Telluride, CO**

**Type: Full Time**

**Schedule: 8:00 a.m. - 6:00 p.m. Monday - Thursday OR Tuesday - Friday**

**Wage: \$20.00 / hour DOE**

**About Us:** San Juan Sound and Vision is a leading provider of audiovisual solutions, specializing in the installation of custom home electronics in high end homes and businesses. We do everything A/V from the ground up, including (but not limited to), service/maintenance of audio/video systems, TVs, sound systems, home theaters, networking equipment, security systems, smart home technology, cell boosters, window shades, etc. San Juan Sound and Vision is looking for a reliable, and career-oriented employee. We will provide training to the right candidates with the understanding the training will be an ongoing integral part of this position. We have a strong reputation in Telluride and the surrounding areas and are looking to hire 1 to 2 technicians to join our team.

**Position Summary:** As an AV Technician/Integrator at San Juan Sound and Vision, you will play a critical role in the installation, maintenance, troubleshooting, and support of audiovisual equipment and systems while ensuring seamless AV experiences for our clients.

### Key Responsibilities:

#### AV System Installation:

- Install and configure audiovisual equipment according to company standards.

#### System Maintenance and Troubleshooting:

- Perform routine maintenance on AV systems to ensure they are in optimal working condition.
- Diagnose and troubleshoot technical issues promptly and efficiently.
- Make necessary repairs and replacements of AV components.

#### Quality Assurance:

- Conduct testing and quality checks on AV systems to ensure they meet client requirements and standards.
- Calibrate audio and video equipment for optimal performance.

#### Client Support:

- Collaborate with clients to understand their AV needs and provide expert recommendations.
- Offer technical support and training to clients on the use of AV equipment.

#### Documentation:

## LANDMARK STAFFING

- Maintain accurate records of equipment inventory, configurations, and service history.
- Generate reports and documentation for project status and client communication.

### Team Collaboration:

- Work closely with project managers and fellow AV technicians to ensure projects are completed on time and within budget.
- Assist in the planning and execution of AV installations and events.

### Travel Requirements:

- This position requires travel to and from Telluride (transport is provided from Montrose, Ridgway, and Norwood.) Work is conducted primarily in Telluride, Norwood, and Ridgway by a Company Vehicle.

### Qualifications:

- High school diploma or equivalent; technical or AV-related certifications are a plus.
- Experience in audiovisual system installation, maintenance, and troubleshooting is preferred but not required as training will be provided to the right candidate.
- Experience in operating and configuring AV equipment, including projectors, sound systems, and control systems is preferred but not required as training will be provided to the right candidate.
- Familiarity with various AV connectors, cables, and signal types.
- Strong problem-solving and communication skills.
- Ability to work independently and as part of a team.
- Excellent customer service and interpersonal skills.
- Willingness to stay updated on the latest AV technology trends and advancements.
- Valid driver's license and reliable transportation.
- Background check and drug testing is required for this position.
- Must have a general understanding of computers and networking, be comfortable with the use of power tools, and willing to invest in your own tools over time.

Benefits: San Juan Sound and Vision, offers a competitive compensation package, including 401 K with profit sharing (after 1 year), 40 Hours Paid Time Off (after 1 year), 48 Hours sick pay (after 90 days), Health Insurance (after 90 days), and Holiday Pay.
