

LANDMARK STAFFING

Position: HVAC Technician
Location: Grand Junction, CO
Type: Full Time
Wage: \$28.00 - \$34.00/ hour

Job Summary:

Local Heating and Cooling company is looking for an HVAC Technician to ensure that HVAC systems operate efficiently, meet safety standards, and provide optimal comfort for our clients. The ideal candidate will have prior HVAC experience, be reliable, and customer service oriented.

Job Responsibilities:

- Install new HVAC systems and provide guidance and recommendations to clients on system usage, energy efficiency, and proper maintenance practices.
- Conduct inspections and perform routine maintenance to ensure their proper functioning. Identify potential issues and recommend appropriate solutions. As needed, Replace or repair faulty components.
- Utilize diagnostic tools and equipment to diagnose and troubleshoot HVAC system malfunctions and assess the performance of the systems.
- Develop effective solutions to resolve technical issues and restore system functionality.
- Ensure a positive customer experience by delivering high-quality service and maintaining a professional demeanor. Communicate with clients to understand their HVAC needs and address any concerns they may have.
- Adhere to industry regulations, building codes, and safety standards while performing HVAC installations and repairs.
- Document all work performed, including inspections, repairs, and maintenance activities.
- Stay informed about advancements in HVAC technology and industry best practices.
- Collaborate with other technicians, contractors, and team members to complete complex projects or resolve challenging issues.
- Coordinate with clients, project managers, and supervisors to schedule appointments and installations.
- Respond promptly to emergency service calls, especially during extreme weather conditions or system failures. Prioritize and address urgent issues to minimize downtime and discomfort for clients.

Job Requirements:

- Completion of HVAC training program or apprenticeship.
- 5-7 years proven experience as an HVAC Technician, with a strong understanding of HVAC systems and components.
- Proficiency in reading and interpreting blueprints, schematics, and technical manuals.
- Valid Driver's License required and clean MVR
- Background Check is also required.
- Schedule maintenance for company vehicles, perform preventative maintenance, and keep vehicles clean and tidy.
