

LANDMARK STAFFING

Position: Fire Alarm Technician

Location: Grand Junction, CO

Type: Full Time

Wage: \$20.00 - \$35.00/ hour

Superior Alarm, Inc., is a leading provider of fire safety and inspection and security solutions dedicated to protecting lives and property. We specialize in the design, installation, and maintenance of fire alarm systems for residential, commercial, and industrial facilities.

We are seeking a skilled and experienced **Fire Alarm Technician** to join our team. In this role, you will be responsible for installing, testing, and repairing fire alarm systems to ensure compliance with fire safety regulations and standards. Your technical expertise and attention to detail will play a crucial role in safeguarding our clients' properties and occupants.

Job Responsibilities:

- Install, program, and configure fire alarm systems according to manufacturer specifications and applicable codes.
- Conduct routine inspections and testing of fire alarm systems to verify functionality and identify any issues or deficiencies.
- Diagnose and troubleshoot electrical and mechanical problems related to fire alarm systems, including wiring, sensors, control panels, and communication devices.
- Perform preventative maintenance tasks, such as cleaning, calibration, and battery replacement, to ensure the reliability and effectiveness of fire alarm systems.
- Generate detailed inspection and service reports documenting findings, repairs, and recommendations for corrective actions.
- Coordinate with clients, building owners, and authorities having jurisdiction (AHJs) to schedule inspections, obtain permits, and address compliance issues.
- Provide training and support to building personnel on the proper use and maintenance of fire alarm systems.
- Stay informed about industry trends, technological advancements, and regulatory changes related to fire alarm systems.

Job Requirements:

- Minimum of 2 years experience as a fire alarm technician or in a related field.
- A solid understanding of Fire Alarm Programming is required for this position.

LANDMARK STAFFING

- Proficiency in installing, testing, and troubleshooting fire alarm systems, including knowledge of NFPA codes and standards.
- Strong technical aptitude and familiarity with electrical systems, low-voltage wiring, and electronic components.
- Relevant certifications such as NICET, ESA Certified Alarm Technician (CAT), or manufacturer-specific training (e.g., Notifier, Simplex, Honeywell) are highly desirable.
- Excellent problem-solving skills and attention to detail.
- Ability to work independently and as part of a team in a fast-paced environment.
- Valid driver's license and clean driving record.
- Background Check and drug testing is required for this position.
- May be required to travel from time to time (at least 1-2 days per month to Glenwood Springs, Carbondale, and Aspen). Transportation is provided.

Benefits:

- Health Plans
- Retirement Plan
- Vacation and Holiday Pay
