

LANDMARK STAFFING

Position: HVAC Journeyman
Location: Grand Junction, CO
Type: Full Time
Wage: \$28.00 - \$40.00/ hour DOE

Local HVAC Company is looking for an HVAC Journeyman who will be responsible for the installation, maintenance, and repair of HVAC Systems in various settings. This role requires a deep understanding of HVAC systems, strong problem-solving skills, and the ability to work independently or as part of a team. The ideal candidate will have a journeyman-level certification and several years of hands-on experience in the field.

Job Responsibilities:

- Install, maintain, and repair heating, ventilation, and air conditioning systems in residential, commercial, and industrial settings.
- Diagnose HVAC system performance through testing, equipment inspection, and analysis.
- Read and interpret blueprints, technical drawings, and specifications to determine project requirements.
- Ensure compliance with all applicable codes, standards, and regulations, including safety protocols.
- Troubleshoot HVAC systems to identify issues and implement effective solutions.
- Conduct regular maintenance to ensure system efficiency and longevity.
- Collaborate with other team members and contractors to complete projects on time and within budget.
- Provide excellent customer service, addressing client concerns and explaining system functions and maintenance procedures.
- Keep accurate records of work performed, materials used, and project timelines.
- Stay current with industry advancements and best practices through ongoing training and professional development.

Job Requirements:

- Valid HVAC Journeyman license or certification.
- Minimum of 3-5 years of experience as an HVAC technician or in a similar role.
- Proficiency in using HVAC diagnostic tools, equipment, and software.
- Strong understanding of HVAC systems, including electrical components, refrigeration cycles, and airflow dynamics.
- Ability to read and interpret blueprints, schematics, and technical manuals.
- Excellent problem-solving skills and attention to detail.
- Strong communication and interpersonal skills.
- Ability to work independently and as part of a team.
- Physical ability to perform tasks that require climbing, lifting, and working in confined spaces.
- Valid driver's license and clean driving record.
